Welcome Message

Dear colleagues,

Welcome to the Middle East's biggest hub for Fertility and Assisted Reproduction UEARS 2024 (Upper Egypt Assisted Reproduction Symposium).

This year, we have come up with an exciting scientific program aimed at sparking innovation, promoting collaboration, and bridging the gap between science and practice.

UEARS 2024 is all about being the conference for the diverse assisted reproduction community. Our main mission is to equip you with the latest techniques and advancements to tackle the emerging challenges in this field. With your enthusiastic participation, we aim to create a platform for knowledge exchange, nurturing collaboration, and shaping the future of assisted reproduction.

Mark your calendars from 7th to 9th February at the Intercontinental Cairo Citystars, as we dive into the theme (Healthy Gametes, Healthy Embryos.) This conference is set to bring together scholars from around the world and Egypt, showcasing groundbreaking advancements in assisted reproduction. Get ready for captivating lectures by key thought leaders, engaging plenary sessions, enlightening interdisciplinary symposia, interactive workshops, hands-on activities, and thought provoking oral and poster sessions.

We warmly invite you to be a part of UEARS 2024.

Join us and make a difference.

CHAIRPERSONS

ALPHABETICALLY

Gamal Serour 
Hassan Sallam 

Mohamed Aboulghar 
Yacoub Khalaf 

TIME	TOPIC	SPEAKER
8:50-9:10	Oxidative stress in assisted conception	Hassan Sallam 
9:10-9:30	What we should and shouldn't do in ART management guided by evidence - based medicine	Mohamed Aboulghar 
9:30-09:50	Network meta - analysis: appraisal of real - world options	Khalid Khan 
09:50-10:10	Individualized luteal phase support	Gamal Serour 
10:10-10:30	Caesarean scar disorder (CSDI)	Mohamed Bedaiwy 
10:30-10:50	Seven deadly sins in IVF practice.	Yacoub Khalaf 
10:50- 11:10	Do we need to regulate IVF practice in Egypt	Mohamed Yehia Soliman 
11:10 -11:30	الحقن المجهري في مصر في ظل التشريعات الجديدة	Ali Mahran 
11:30 -11:50	UEARS community service award: honoring Professor Hassan Ali Maghraby	Yacoub Khalaf  Mohamed Bedaiwy 
11:50-12:00	Opening	Yacoub Khalaf  Fadel Shaltout 
12:00-12:30	Essential Nutrients & Antioxidants in Infertility	Emad A Taha 
12:30-12:45	Optimal Strategy for LPS in ART "PROGEST 200 mg"	Hassan Sallam 
12:45-13:00	Coffee Break

SUBMITTED LECTURES TO MEET YOUR EXPECTATIONS

HALL "MONTAZA 4"

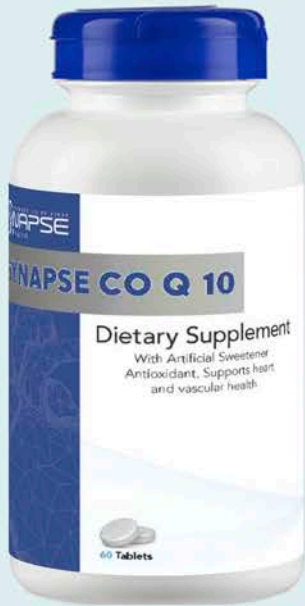

CHAIRPERSONS

ALPHABETICALLY

Ahmed Barakat 
Haitham Badran 
Hesham Shalan 
Mohamed Walaa ElDeep 

TIME	TOPIC	SPEAKER
14:10 - 14:30	Optimizing natural fertility	Ahmed Refaat Adly 
14:30-14:50	comparison between two sperm preparation methods : the routine density gradient centrifugation (DGC) and DGC followed by zeta potential sperm selection method regarding to ICSI outcome	Hend El-danaf 
14:50 - 15:10	Abnormal oocyte morphology and Embryo developmental competence" Is there a relationship	Engy Abdallah 
15:10 - 15:30	Fertility Preservation	Omar Elkousy 
15:30-15:50	Advanced sperm selection technique based on evidence by means of MSOME and IMSI vs routine ICSI	Habiba Farag 
15:50 - 16:10	The correlation between low & very low serum AMH concentrations with respect to age and pregnancy outcome in IVF/ICSI cycles, a cross sectional study	Kamal Rageh 
16:10 - 16:30	Microbiome and infertility	Mohamed Salama Gad 
16:30-16:50	Revisiting rotterdam criteria	Mohamed Imam 
16:50 - 17:10	Postnatal development of the hippocampus in male albino rats	Ali Baraka 

Synapse Co Q10

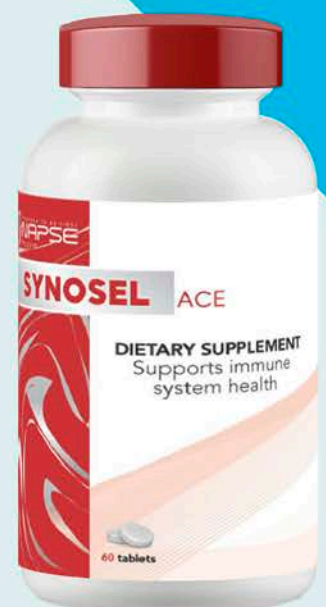

Egyptian coenzymeQ10 with 200mg pure coenzyme Q10.

- Protects the ovarian reserve against oxidative damage by counteracting both mitochondrial ovarian aging and physiologically programmed ovarian aging despite the certain effect of OS in female fertility.
- Using Q10 200mg during IUI and IVF cycles in patients with decreased ovarian reserve those patients show significant increases in AFC and improvement in ovarian responsiveness during IUI and IVF without a difference in clinical outcome.
- Increases clinical pregnancy rates in women with infertility.
- Significantly reduces the rates of IVF cycle cancellation due to a poor response to medication.
- Improves ovarian response to stimulation and some embryological parameters.
- Helps balance out oocyte (immature ovum) deficits leading to infertility.
- Helps support sperm and ovum quality or other aspects of male and female infertility.
- Supplementation during pregnancy reduces the risk of pre-eclampsia in women at risk for the condition.

Synasel ACE

Potent Antioxidant

- Contributes to normal testicular development, spermatogenesis, and spermatozoa motility and function.
- Helps protect cells from damage caused by free radicals.
- Selenium also plays a role in the production of sperm and the function of the male reproductive system.
